Payr must be sent to John Deere Financial, at the address designated on your monthly payment stub or to any other pa address JDF later designates on your monthly statement payment stub. We will not accept any payments at our of

INTEREST CHARGE RATES. Interest Charges on your multi-use account may be calculated using **variable rates** that w determined by reference to a **"Base Rate"** to which is added a **"Spread"** to arrive at the current rate.

The **Base Rate** from which your variable rates will be determined is the annual percentage rate of interest announced publicly from time to time by Citibank, N.A. in New York, New York as the base rate it uses for inter rate determinations, which was in effect at the close of business on the fifteenth (15th) calendar day of each m or the next succeeding business day if the fifteenth is not a business day ("Reference Day"). The **Spreads** added the **Base Rate** to determine the **ANNUAL PERCENTAGE RATES (APRs)** that will apply to your Account will be:

	Preferred	Merchant Authorized
Spread	11.9%	13.9%

Rate increases and decreases, that result from changes in the Base Rate will take effect on the first day of the mon the next succeeding business day if the first day is not a business day, after the Reference Day on which the Base F changes.

Changes in your variable rates will apply to your existing Account balance as well as to future purchases under you Account. An increase in your rate will increase the total Interest Charge accruing on your Account and the balance which your Minimum Required Payment is calculated. For example, if the Base Rate (and thus the applicable varial were to increase by 5%, and the average daily balance to which the new rate applied was $1,000, your **INTEREST C** for that month would increase by $4.17 as a result of the increase in the variable rate.

Currently effective rates are shown below:

	Daily Periodic Rate(s)		Annual Percentage Rate(s)	
	Preferred Purchases	Merchant Authorized Purchases	Preferred Purchases	Merchant Authorized Purchases
Rate:	.041507%	.046986%	15.15%	17.15%

The above rates are correct as of the date of printing, 04/16/2012, but are subject to change after that date. To fir what may have changed, write to John Deere Financial, P.O. Box 5328, Madison, Wisconsin 53705-0328; or call Cu Service at 1-800-356-9033.

INTEREST CHARGE CALCULATION. INTEREST CHARGES will accrue on your Account Balance as follows:

On purchases JDF will add an INTEREST CHARGE, calculated as shown below, if your New Balance is not paid in f or before the Payment Due Date. To avoid additional Interest Charges on your purchases, you must pay the Nev Balance in full on or before the Payment Due Date.

The amount of your **INTEREST CHARGES** will be determined as follows:

JDF uses the daily periodic rates and corresponding **APRs** shown in this Agreement. The applicable periodic rate applied to the "Average Daily Balance" of your purchases, including current transactions during the current billi cycle.

To get the "Average Daily Balance", JDF takes the beginning balance of your purchases, starting with any Previo Balance outstanding on the first day of the monthly billing cycle, adds any new purchases and debits (other tha payment fees) and subtracts any payments or credits. This determines the daily balance. Unless JDF elects to us later date, purchases are added to the daily balance as of the date of purchase.

JDF totals the daily balances for the billing cycle and divides the total by the number of days in the billing cycle. gives JDF the "Average Daily Balance" which is shown on your monthly statement. Interest Charges may accrue Special Promotions Transactions at a different rate, as explained in the Special Promotions section of this Agree
