2016 Your Money, Your Goals Cohort
CFPB Criteria for Interested Organizations

The Consumer Financial Protection Bureau (CFPB) will provide Your Money, Your Goals (YMYG) toolkits, training, and technical assistance to up to 20 organizations across the country that are committed to helping financially empower the populations they serve. This is not an opportunity for a grant, contract, sub-contract, or funding. This is an opportunity for public and private organizations or entities to receive consumer education materials, training for staff and volunteers, and technical assistance to integrate financial empowerment and capability strategies into their existing service delivery model.

The CFPB will support members of the 2016 YMYG Cohort in using the YMYG toolkit to help build the financial capability of those they serve. The four versions of the toolkit are designed for use in social services programs, legal aid, worker organizations, and organizations that rely on volunteers to coach, counsel, or mentor the people they serve. All versions of the toolkit are available in English and Spanish at this website. Organizations have used various innovative approaches to implement YMYG training, tailoring it to their organization’s structure, mission, modes of service delivery, and clientele. When combined with the training, the toolkit includes the resources that staff and volunteers need to help people set goals, choose financial products, and build skills in managing money, credit, and debt.
The CFPB will provide the following:

A Train-the-Trainer event (in-person or webinar) for members of participating organizations designated as trainers. These trainers would then lead workshops for frontline service providers or volunteers within their organizations to help them use YMYG in their work.

- Hard copies of the complete YMYG toolkit for the staff/volunteers the organization trains to use with the people they serve.
- Technical assistance in determining training priorities and adapting use of the toolkit for the organization or program.
- Coordination calls for all cohort participants at key points during the year.

To participate

The CFPB anticipates that training and technical assistance will begin in January 2016 and conclude in September 2016.

To be a good fit for this cohort, organizations must serve low-income and/or economically vulnerable people. Other criteria include:

- **Commitment to integrating financial empowerment into their work.** Demonstrate an understanding of the benefit of helping the people you serve become more financially capable and how their increased financial capability may help them achieve their goals and the outcomes your organization’s services support.

- **Staff capacity for training on and use of YMYG toolkit.** Demonstrate capacity to dedicate staff time to lead training of other staff within the organizations and/or other organizations within the organization’s community.

- **Staff capacity to use toolkit with clients.** Demonstrate capacity to commit staff or volunteer time directly to using YMYG’s information and/or tools with low-income and/or economically vulnerable populations.

- **Commitment to collect and return training surveys.** Willingness to fulfill survey collection responsibilities which enable us to continue to improve the toolkit and measure its impact.

We are interested in engaging organizations with a variety of capacities and approaches including more experienced organizations and those with little prior experience in using tools to add financial capability topics to increase the value of their existing services.
Next steps

If your organization meets the above criteria and is interested in participating in this 2016 YMYG Cohort, please tell us by sending a letter of interest to empowerment@consumerfinance.gov by November 10th with the subject line “Your Money, Your Goals 2016.”

While not required, you may include the following helpful information:

- A description of the organization and the population it serves
- An overview the organization’s plans to use YMYG to help serve its customers
- A discussion of proposed implementation plan
- Name and contact information of an organization’s point of contact for this request

As you consider how you would implement Your Money, Your Goals, you may find the framework detailed in Building Financial Capability: A Planning Guide for Integrated Services useful. It was developed to help organizations integrate financial capability strategies into their work by The Administration for Children and Families (ACF), a division of the U.S. Department of Health & Human Services (HHS).
