Acting out fraud and identity theft

Students develop and act out skits depicting possible fraud and identity theft and ask classmates to guess which type of crime is occurring.

Learning goals

Big idea

Fraud and identity theft hurt millions of Americans every year.

Essential questions

- What are the most common types of fraud and identity theft?
- How do fraud and identity theft pose a financial risk to me?

Objectives

- Review the characteristics of common fraud and identity crimes
- Identify the types of fraud and identity theft described in a real-world scenario

What students will do

- Read a scenario describing a type of fraud or identity theft.
- Work in groups to create a skit that brings that scenario to life.
- Act out the skit for the class.
- Guess which type of fraud or identity theft is being portrayed in each skit.

KEY INFORMATION

Building block:
- Financial knowledge and decision-making skills

Grade level: High school (9-12)

Age range: 13-19

Topic: Protect (Preventing fraud and identity theft)

School subject: CTE (Career and technical education), English or language arts, Fine arts and performing arts, Social studies or history

Teaching strategy: Cooperative learning, Simulation

Bloom’s Taxonomy level: Understand, Create

Activity duration: 75-90 minutes

STANDARDS

Council for Economic Education
Standard VI. Protecting and insuring

Jump$tart Coalition
Risk management and insurance - Standard 1

Financial decision-making - Standards 1 and 7

Preparing for this activity

- While it’s not essential, having students complete the “Defining fraud and identity theft” activity before doing this activity may provide students with the context and background knowledge to make this a richer experience.
- Print copies of all student materials for each student or prepare for students to access them electronically.
- Print the 10 fraud and identity theft scenarios and cut them into strips.
- Gather props for students to use when they act out the skits.

What you’ll need

THIS TEACHER GUIDE
- Acting out fraud and identity theft (guide)

- Props (optional)

Exploring key financial concepts

Millions of Americans are victims of fraud or identity theft each year. No matter where you live or how old you are, you may someday be affected by these crimes. Knowing how to recognize fraud and identity theft is part of becoming financially literate.

TIP
Students should be encouraged to always look for the most up-to-date information.

Teaching this activity

Whole-class introduction
- Distribute the “Acting out fraud and identity theft” worksheet.
- As a class, review the terms listed on the worksheet.
- Be sure students understand key vocabulary:
  - **Data breach:** The unauthorized movement or disclosure of sensitive information to a party, usually outside the organization, that is not authorized to have or see the information. Someone who gets the data might use it for identity theft.

  - **Elder financial exploitation:** The illegal or improper use of an older adult’s funds, property, or assets by family members, caregivers, friends, or strangers who gain their trust.

  - **Foreclosure relief scam:** Scheme to take your money or your house often by making a false promise of saving you from foreclosure; includes mortgage loan modification scams.

  - **Identity theft:** Using your personal information — such as your name, Social Security number, or credit card number — without your permission.

  - **Imposter scam:** An attempt to get you to send money by pretending to be someone you know or trust, like a sheriff; local, state, or federal government employee; a family member; or charity organization.

  - **Mail fraud scam:** Letters that look real but contain fake promises. A common warning sign is a letter asking you to send money or personal information now to receive something of value later.

  - **Phishing scam:** When someone tries to get you to give them personal information, such as through an email or text message, often by impersonating a business or government agency. This can be thought of as “fishing for confidential information.”

  - **Spoofing:** When a caller disguises the information shown on your caller ID to appear as though they are calling as a certain person or from a specific location.

  - **Tax-related identity theft:** When someone steals your Social Security number to file a tax return claiming a fraudulent refund; may also be called tax-filing-related identity theft.

  - **Wire transfer fraud:** Tricking someone into wiring or transferring money to steal from them. One common example of a wire transfer fraud is the “grandparent scam.” This is when a scammer posing as a grandchild or a friend of a grandchild calls to say they are in a foreign country, or in some kind of trouble, and need money wired or sent right away.

TIP
Visit CFPB’s financial education glossary at consumerfinance.gov/financial-education-glossary.
Group work

- Divide the students into pairs or small groups and distribute one fraud or identity theft scenario to each group. 
  Note: There are 10 scenarios, so you can have up to 10 pairs or groups.
- Give groups time to plan and practice their skit.
- Ask each group to perform their skit.
  - As each group performs, ask the rest of the class to watch and use the terms listed on their worksheet to guess what type of crime is being committed.
  - Facilitate class discussion related to the details of the various crimes, as needed.

Wrap-up

Have students complete an exit ticket that answers the questions, “How do fraud and identity theft pose a financial risk to me? What can I do to protect myself?”

Suggested next steps

Consider searching for other CFPB activities that address the topic of protect, including managing risk and preventing fraud and identity theft.

Measuring student learning

- Students’ performances, their discussion, and their response on the exit tickets will help you gauge their developing understanding of fraud and identity theft.
- To formally assess student understanding of types of fraud and identity theft, you can score student worksheets using the answer guide provided.

Keep in mind that students’ answers may vary, as there may not be only one right answer. The important thing is for students to have reasonable justification for their answers.

TIP

Since understanding types of fraud and identity theft is important for students to successfully complete this activity, be sure to review these definitions so students truly become familiar with similarities and differences. You might consider creating an anchor chart with the definitions to hang on classroom walls, or have students create word walls with the vocabulary terms as described in the “Defining fraud and identity theft” activity. Remind students to refer to these definitions to help them identify the crime described in each skit.

Fraud and identity theft scenarios

Cut scenarios into strips and distribute one to each student group.

1. You receive an email that encourages you to click a link and enter personal information, including your Social Security number and bank account number. The email looks official, but the sender’s email address seems odd.

   TYPE OF FRAUD: Phishing scam

2. You contact the IRS to ask for more time to file your taxes, but you find out that someone has already filed a tax return in your name.

   TYPE OF FRAUD: Tax-related identity theft

3. You receive a letter from an unknown company with a message that you’ve won a cash prize. To claim your prize, you’ll need to send them your bank account information so they can deposit the money into your account. The company then uses your bank account information to take money from you.

   TYPE OF FRAUD: Mail fraud scam

4. Your caller ID shows that a local number associated with the high school in your town is calling you. You answer and the person calling says they’re raising money for a local sports tournament. You soon realize the caller is not actually with the school.

   TYPE OF FRAUD: Spoofing

5. You get a call from someone raising money for a charity. They ask you to wire money immediately because they have a critical and urgent humanitarian need. They get annoyed when you ask them for more information.

   TYPE OF FRAUD: Wire transfer fraud
6. You get a call from someone claiming to be with the sheriff’s office. They say they need your personal information to update their neighborhood records. You quickly recognize they’re an imposter and not actually who they claim to be.

   TYPE OF FRAUD: Imposter scam

7. Someone pretending to be you used your name and personal information to borrow money to purchase a car.

   TYPE OF FRAUD: Identity theft

8. Your grandmother has a neighbor who has gained her trust but has been secretly taking money from her bank account.

   TYPE OF FRAUD: Elder financial exploitation

9. A hacker stole information from your credit card company, including your personal data, and used it to charge purchases.

   TYPE OF FRAUD: Use of stolen data from a data breach

10. You receive a letter saying that your house is in foreclosure and will be taken by the bank unless you mail a check and your personal information immediately. You know you’ve been paying your mortgage on time.

    TYPE OF FRAUD: Foreclosure relief scam
