

Class tally sheet

Record students' individual results from the PDF version of the building blocks survey on this sheet. This will allow you to aggregate the results for a group of students.

This type of class report can help you better understand the attitudes, skills, and habits students have already developed, and identify the opportunities for targeted instruction and activities to help teach the building blocks. Use the assessment teacher guide and the results worksheet to help interpret the results.

	Student	 Executive function (Planning and self-control)	 Financial habits and norms (Money habits and values)	 Financial knowledge and decision-making skills (Money knowledge and choices)	Overall financial capability result
