

# Evaluating your prepaid or payroll card

Carefully read the terms and fee descriptions when you get your prepaid or payroll card to learn how much you'll pay each month to have and use your card.

Each prepaid and payroll card has its own set of rules and fees. Before you use your card, it's important to understand the fees you'll pay to maintain your account, make purchases, and withdraw money. After adding up the fees, you can compare cards and also compare the cost of a card to the costs of a bank or credit union account.

Most prepaid cards have their own policies about loss, theft, and errors. Information about these policies can be found in the cardholder agreement.

Most prepaid cards also offer details about terms and fees on their website, so you can look online if you want to compare cards before buying one.

## What to do

- **Review the definitions** of common prepaid card fees so you know what they are.
- **Find the terms and fees** for your prepaid or payroll card. These are usually on the back or inside of the card packaging.
- **Get all the facts.** Make sure you have all the answers about how the card works and what fees are involved. Consider researching prepaid cards online, so you can read about all the features before you buy it.

## A step further

A prepaid or payroll card can also give you the services that you would get with a debit card linked to a checking account. Review the "Finding financial products and services" tool to learn more. If your employer pays wages by payroll card, you must be offered at least one other option to get paid. Learn more with the "Knowing your prepaid card rights" handout.
