

Preparing the short form disclosure for prepaid accounts

Disclosure guide and model form

This disclosure guide is based on Regulation E's Model Form A-10(c) and provides basic "how to" instructions to help financial institutions (FIs) prepare short form disclosures for prepaid accounts other than government benefit accounts or payroll card accounts. This disclosure guide provides general instructions about how to complete the short form disclosure for such prepaid accounts, and does not address other requirements under Regulation E, as amended by the Prepaid Rule.¹ In addition, this disclosure guide does not detail all of the requirements for the short form disclosure that may be applicable to a particular FI's prepaid accounts.² Consult the Prepaid Rule to comply with the requirements for preparing the short form disclosure; this guide is not a substitute for reviewing the rule.

Where the rule requires the FI to include statements, clauses, or other content in the model form, use the language used in the rule or substantially similar language. Do not include information other than what is required or permitted to be included on the short form disclosure.

¹ On October 5, 2016, the Consumer Financial Protection Bureau issued a final rule (2016 Prepaid Rule) to create comprehensive protections for prepaid accounts under Regulation E, which implements the Electronic Fund Transfer Act (EFTA), and Regulation Z, which implements the Truth in Lending Act. On April 20, 2017, the Bureau issued a final rule to extend the October 1, 2017 effective date of the 2016 Prepaid Rule by six months, to April 1, 2018. On January 25, 2018, the Bureau issued a final rule (2018 Prepaid Amendments) further extending the effective date to April 1, 2019 and making other changes and clarifications. This document has been updated to reflect these changes and clarifications. The 2016 Prepaid Rule, as amended by the 2018 Prepaid Amendments, is referred to as the Prepaid Rule in this document.

The requirements for short form disclosures for prepaid accounts are generally set forth in § 1005.18(b). Regulation E, the Prepaid Rule, and their official interpretations (also known as the commentary) are the definitive sources of information regarding their requirements. The Prepaid Rule is available at consumerfinance.gov/policy-compliance/rulemaking/final-rules/prepaid-accounts-under-electronic-fund-transfer-act-regulation-e-and-truth-lending-act-regulation-z/.

² See Model Form A-10(d) for another example of a short form disclosure for prepaid accounts or see Model Form A-10(e) for a short form disclosure for prepaid accounts with multiple service plans. See Model Forms A-10(a) and (b), respectively, for short form disclosures for government benefit accounts and payroll card accounts.

Inserting fee amounts

Highest fee: When inserting the amount of a fee that could vary into the short form disclosure, insert the highest amount that the FI may charge, followed by a symbol, such as an asterisk, linked to a statement explaining that the fee could be lower depending on how and where the prepaid account is used (#12). § 1005.18(b)(3)(i).

Third-party fees: Except for the amount of the cash reload fee, the short form disclosure must not include any third-party fees. § 1005.18(b)(3)(iv). Fees charged by third parties performing services on behalf of the FI are not third-party fees. Comment 18(b)(3)(iv)-1. The cash reload fee must be the total of all charges from the FI and any third-party charges for a cash reload known by the FI at the time it prints, or otherwise prepares, the short form disclosure. § 1005.18(b)(3)(v); comment 18(b)(3)(v)-1.

Variable fees: If the amount of a fee could vary, insert an asterisk (*) or other symbol next to the inserted fee amount, linked to a statement explaining that the

fee could be lower depending on how and where the prepaid account is used (#12). If the periodic fee could vary, the FI may choose instead to insert a different symbol, such as a dagger (†), linked to a statement explaining the circumstances under which a waiver or reduction of the periodic fee may occur (#11). § 1005.18(b)(3)(i) and (ii). For information on disclosing variations for additional fee types, see below and Section 4.2.3 of the *Prepaid Rule Small Entity Compliance Guide*. See also § 1005.18(b)(2)(ix)(C) and comments 18(b)(2)(ix)(C)-1 and -2.

Single disclosure for like fees: If the fee amount is the same for the two-tier fees required to be disclosed for ATM withdrawal, ATM balance inquiry, or customer service, the FI may choose to disclose a single fee amount. Similarly, if the fee amount is the same for any two-tier additional fee type, the FI may choose to disclose a single fee amount. § 1005.18(b)(3)(iii).

Free or inapplicable features: The short form disclosure must include information about the periodic fee, per purchase fee, ATM withdrawal fee, cash reload fee, ATM balance inquiry fee, customer service fee, or inactivity fee, even if the particular feature for which the fee is charged is not offered for the prepaid account or if there is no cost to the consumer associated with that feature. For example, if the FI does not charge an ATM withdrawal fee, enter "\$0" as the applicable fee amount. If the FI does not offer the feature, insert "N/A" in place of the fee amount to indicate the feature is not applicable. Comment 18(b)(2)-1.

Finance charges: The short form disclosure must not include any finance charges imposed in connection with a covered separate credit feature. § 1005.18(b)(3)(vi). For more information on covered separate credit features, see Section 15 of the *Prepaid Rule Small Entity Compliance Guide*.

Static fees

All short form disclosures must include certain fees, referred to as “static fees,” even if the particular feature for which the fee would be charged is not offered for the prepaid account or if there is no cost to the consumer associated with that feature. § 1005.18(b)(2).

Additional fee types

While the specific static fees must be disclosed in all short forms, additional fee types disclosure likely will vary among the short forms for different prepaid account programs. The short form disclosure generally must include three disclosures regarding “additional fee types:” (1) the number of additional fee types, (2) disclosure of two additional fee types, and (3) a statement in between (1) and (2) that directs the consumer’s attention to the disclosure of the two additional fee types.

8 Disclosure of the number of additional fee types, § 1005.18(b)(2)(viii)(A)

Insert the following: “We charge [x] other types of fees,” or a substantially similar clause.

In place of the “[x]” in the statement “We charge [x] other types of fees,” **insert the number** of additional fee types that the FI may charge consumers with respect to the prepaid account.

For guidance on how to determine the number of additional fee types, see Section 4.2.3 of the *Prepaid Rule Small Entity Compliance Guide*.

9 Statement directing consumers to the disclosure listing additional fee types, § 1005.18(b)(2)(viii)(B)

On the same line as the statement “We charge [x] other types of fees,” **insert a statement** directing the consumer to that disclosure (i.e., “Here are some of them:” or a substantially similar clause, which lets the consumer know that the fees that follow are additional fee types). Comment 18(b)(2)(viii)(B)-1. Examples of clauses that the FI may use, depending on the circumstances, include:

- “We charge 5 other types of fees. Here are some of them:”
- “We charge 5 other types of fees. Here is 1 of them:”
- “We charge 2 other types of fees. They are:”
- “We charge 1 other type of fee. It is:”

If the FI is not required to (and does not choose to) list any additional fee types in (#10), it must not include this statement in (#9).

For information on the statement introducing the list of additional fee types that must be included in the short form disclosure, see Section 4.2.3 of the *Prepaid Rule Small Entity Compliance Guide*.

10 Disclosure listing additional fee types, § 1005.18(b)(2)(ix)

Insert the names and fee amounts of up to 2 additional fee types that are required or permitted to be disclosed under the rule.

For guidance on how to determine which additional fee types to list, see Section 4.2.3 of the *Prepaid Rule Small Entity Compliance Guide*. The form of the required disclosure may differ depending on the number of fee variations within each additional fee type. See § 1005.18(b)(2)(ix)(C) and comments 18(b)(2)(ix)(C)-1 and -2. See comment 18(b)(2)(viii)(A)-2 for examples of fee types and fee variations.

Short form disclosure format requirements

Prominence and size, § 1005.18(b)(7)(ii)(A)

All text on the short form disclosure must be in a single, easy-to-read type that is all black or one color and printed on a background that provides a clear contrast. For example, the short form disclosure may be printed in black type on a white background or white type on a black background.

Segregation, § 1005.18(b)(7)(iii)

The short form disclosure must contain only information that is required or specifically permitted by the Prepaid Rule and must be segregated from other information. However, additional information may be provided on the same page as the short form disclosure as long as this information is outside the confines of the short form disclosure.

Minimum type size, § 1005.18(b)(7)(ii)(B)(1) and (2)

The rule sets forth minimum type size requirements for the short form disclosure, provided in both points and pixels. "Point" refers to printed disclosures and "pixel" refers to electronic disclosures. The FI may provide disclosures in a type size larger than the required minimum to enhance consumer comprehension, as long as it complies with the type size hierarchy set forth in § 1005.18(b)(7)(ii).
