1. Introduction to Collect

The Consumer Financial Protection Bureau (CFPB), is required by law to collect credit card price and availability information from a sample of credit card issuers and report this information to Congress and make it available to the public, pursuant to provisions of the Truth In Lending Act (TILA), 15 U.S.C. 1646(b)(1), (2) & (4). If your financial institution received an Order from the CFPB requiring your institution to complete the Terms of Credit Card Plans (TCCP) Survey, your institution must complete and submit the TCCP Survey to the CFPB.

This document provides a detailed walkthrough of how to submit a TCCP survey and required data through Collect. Collect is the website through which issuers must submit their TCCP surveys to the Bureau. To access Collect, visit https://collect.consumerfinance.gov.

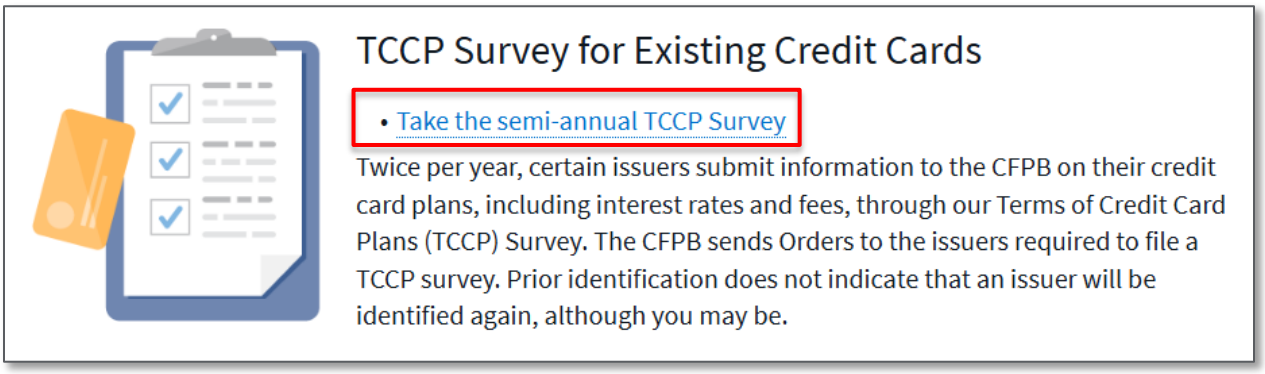

In addition to this detailed walkthrough of Collect, the CFPB has published additional resources to help financial institutions submit credit card marketing agreements and other information through Collect. These resources can be found at https://www.consumerfinance.gov/data-research/credit-card-data/terms-credit-card-plans-survey/

PLEASE NOTE: You are not currently able to save changes in the Collect system before submitting your responses. We recommend you record your responses in a separate document and, upon gathering all the information, pasting individual answers into the corresponding response fields and then submitting.
